Password Reset for Google Accounts
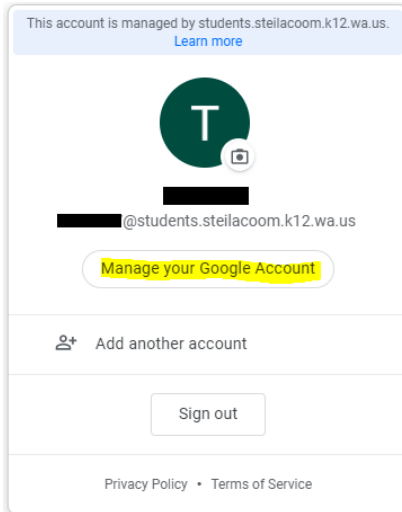

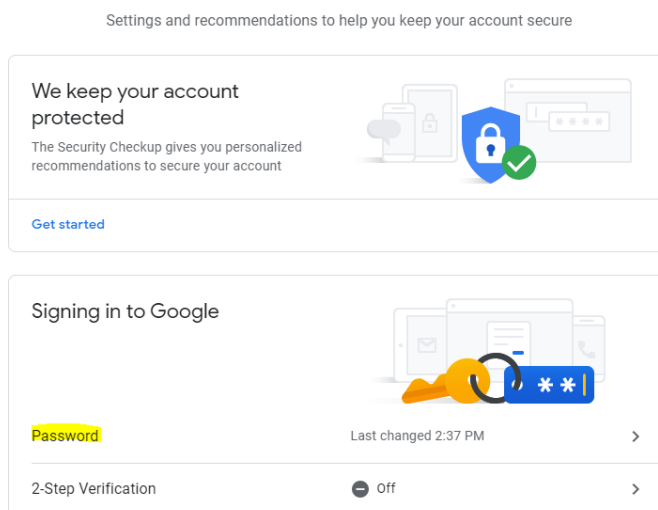

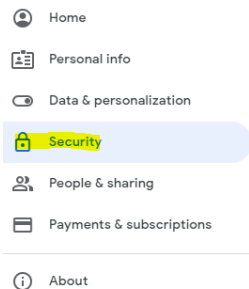

- Log in with your Steilacoom Account
- Click on your profile icon at the top right of Chrome and select **Manage your Google Account**

-
- Click on **Security** located at the left side of the page
  - Click on **Password** in the **Signing in to Google** box located in the middle of the page

  -
- Google will prompt you to enter in the password you used to sign in
  - Google will then prompt you to set your own password
  - Click **Change Password** when complete
