Directions: Answer the following questions using complete sentences. Consider the elements of a good paragraph when answering the questions.

Your Performance:

2. Did you succeed in achieving this goal? (Circle one)
   
   Yes       Sort of       No

   Write a brief evaluation of your performance as President of the United States.

3. If you could go through the simulation again, what would you do differently?

Your Group’s Performance:

4. How easily did your group make decisions? What did the group do when there was disagreement about making a decision? On which decisions did you most strongly disagree with the group? Explain.

5. How well did your team share information? How did you organize discussion within the group? Did everyone get to share his or her opinion? Explain.
6. Did you listen to one advisor more than the others? If so, which one and why? If not, why not?

Computer Simulation Performance:

7. Consider how the world of the simulation is different from the “real world.”
   a. What choice or decision would you have liked to make that weren’t available in the simulation? What would have been the consequence of that decision? Explain (must write at least one)
   b. When the class made a decision, what consequences seemed to be wrong to you? Summarize the consequences and describe what you think should have happened? (must write at least one)

Class Performance:

a. What decision did you think the class made that was wrong? Why? What decision would you have made?
